DAY 4: ART THOU COMPATIBLE?

Dating by the stars. I wouldn't make life decisions on the stars but a little bit of astrological insight can work wonders.

Water signs include **Pisces, Cancer and Scorpio.**

Water signs tend to be more **emotional, sensitive, creative & and nurturing.**

Earth signs include **Capricorn, Taurus and Virgo.**

Earth signs tend to be **practical, materialistic, stubborn & dependable.**

Air signs include **Aquarius, Gemini and Libra.**

Air signs tend to be **analytical, detached, intellectual & social.**

Fire signs include **Aries, Leo and Sagittarius.**

Fire signs tend to be **spontaneous, extroverted, self-centered & passionate.**

Those born within 2-3 days of the astrological changes are considered on the cusp and will have characteristics of both signs.

Astrological compatibility can be as simple as looking at their elements and seeing how they mix. Water nourishes the earth. Fire needs air to survive.

On the flip side, water puts out fire and air can freeze the earth. As always, there are exceptions to the rule.
